

Revolutionizing Agriculture with AI

Empowering farmers with smart tools for sustainable and profitable farming

Support the Future of Farming

Mazagri AgriProject

Cultivating an AI-Powered Digital Future for Farmers

Download PDF Version

The Vision & The Challenge

Our vision is to empower farmers of all sizes and experience levels across Asia—and eventually the world—with accessible, data-driven technology. We aim to enhance yields, reduce waste, and boost profitability.

Today, millions of farmers lack access to critical market data, modern tools, and efficient supply chains. This gap threatens local economies and global food security, a challenge Mazagri is built to solve.

Key Project Details

| | |
|-----------------------|----------------------|
| Start Date: | Jan 2026 |
| Phase 1 Cost: | \$1.5 Million USD |
| Initial Location: | Across Asia |
| Platforms: | Web, iOS, Android |
| Application Model: | Hybrid / Open-Source |
| Sponsorship Deadline: | Jan 30, 2026 |

Our Solution: The AI-Powered Mazagri Application

Our AI-powered application is built to be modular and customizable for every farmer's unique needs. Available on Web, iOS, and Android, it combines an open-source core to foster community collaboration with advanced proprietary modules to deliver a powerful, adaptable suite of tools.

| | | | |
|--|---|---|--|
| Personal AI Assistant A trained assistant to answer questions and guide decisions. | Smart Crop Management AI advice on planting, irrigation, and harvesting. | Seed Management Optimize seed selection and planting strategies with AI analysis. | Pest & Disease Control AI-powered identification and treatment recommendations. |
| Yield Prediction Forecast harvest outcomes to improve planning and sales. | IoT Integration Connect with sensors for real-time soil and crop monitoring. | Market Analytics Real-time market pricing to ensure fair trade for all. | Verified Marketplace Sell crops directly to verified local and global buyers. |
| Supply Chain Direct links between farmers, buyers, and logistics providers. | Financial Tools Simple accounting and financial management for farm businesses. | Weather Forecasting Advanced climate warnings and smart agricultural guidance. | Carbon Credit Revenue A new income stream for farmers through sustainable practices. |

Projected Impact (Phase 1: 3 Years)

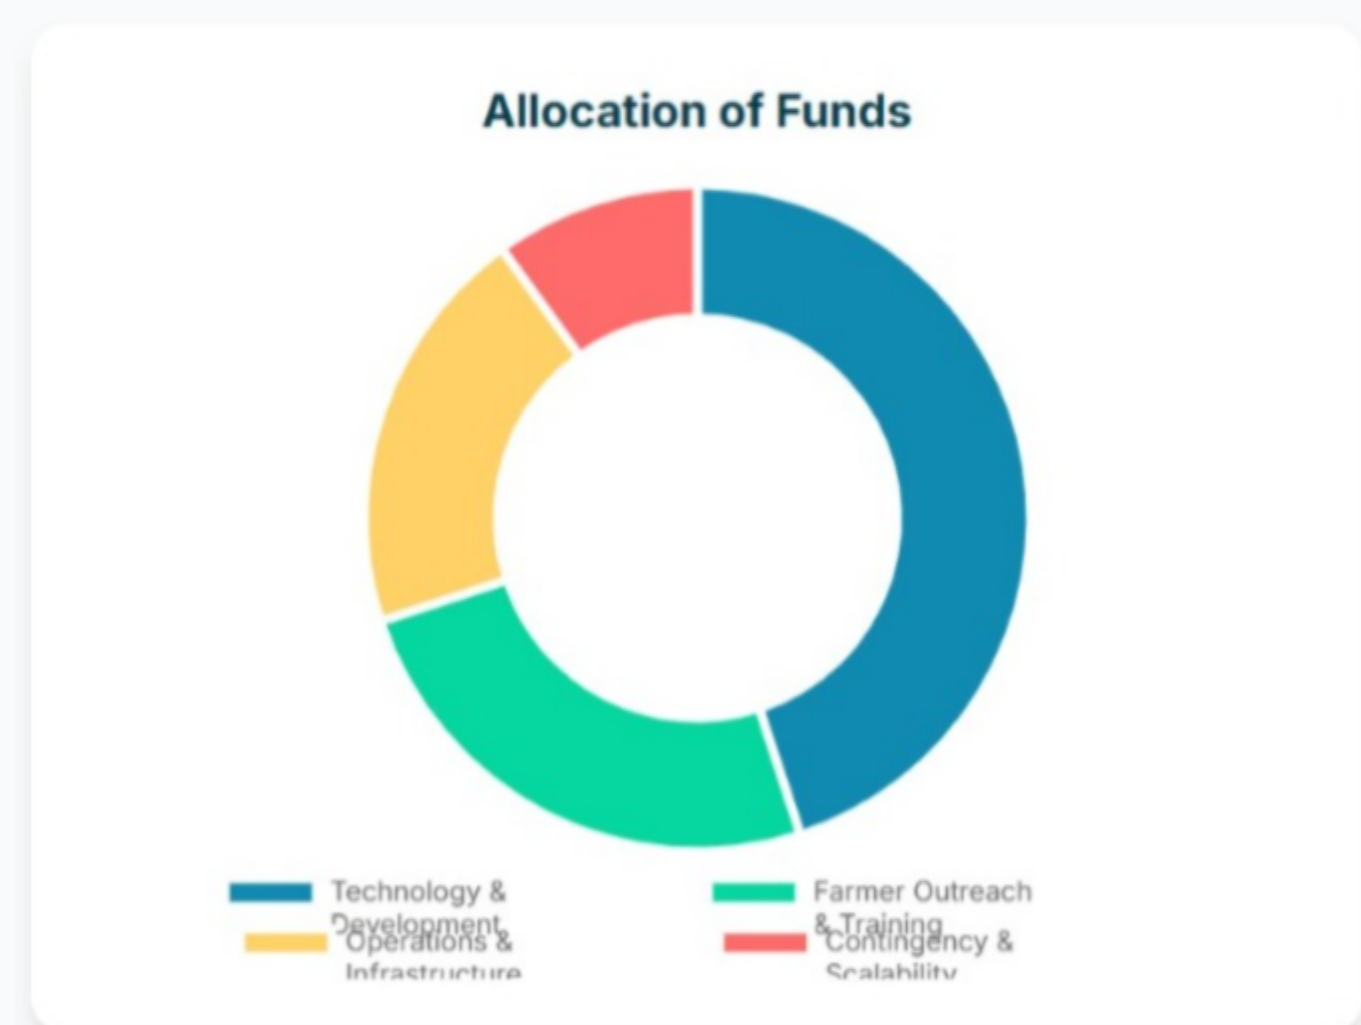

| | | |
|---|--|--|
| 40,000+ Farmers Empowered Onboarded through community-led growth initiatives. | 15-20% Income Increase Potential average increase for participating farmers. | 25% Waste Reduction Aim to reduce post-harvest losses significantly. |
|---|--|--|

Our Roadmap to Success

- Year 1 (2026): Core Platform & Pilot**
Develop Core MVP (AI Assistant, Crop Data). Pilot in Thailand, onboard 5,000 users to prove model.
- Year 2 (2027): Refine & Expand**
Launch Marketplace module based on feedback. Expand to Vietnam and scale user base to 15,000.
- Year 3 (2028): Scale & Optimize**
Introduce Pest/Disease module. Optimize for scale in initial markets, targeting 40,000+ users.
- Beyond: Global Expansion**
With a proven model, secure Series A funding for phased rollout in other key agricultural regions.

Phase 1: The \$1.5M Seed Investment

A Transparent & Strategic Investment

This initial \$1.5 million seed budget is transparently allocated to ensure sustainable growth, technological excellence, and maximum impact on the ground for Phase 1.

We invite corporations, government entities, and individuals to partner with us. Benefits include significant brand visibility, CSR leadership, unique market insights, and participation in our innovative Carbon Credit Program.

Why Partner & Sponsor the Mazagri Project?

| | | |
|---|--|---|
| For Corporate Partners Enhance brand visibility through a high-impact CSR initiative. Gain unique market insights and align with a project driving sustainable agricultural innovation in Asia. | For Governments & NGOs Achieve key policy goals related to food security, rural economic development, and climate sustainability. Partner with a tangible, on-the-ground solution. | For Financial Investors Invest in the AgriTech market. Our strong team and realistic roadmap offer a clear path to profitability and social impact. |
|---|--|---|

Get Involved

Join us in cultivating a brighter future for agriculture. Led by a team of seasoned agronomists and tech innovators, Mazagri is positioned for success. Let's make a difference together.
